

# CoSoSys Enters North American Market

## Endpoint Security and DLP Solutions now available via new US-based office

FEBRUARY 7, 2008 | BUCHAREST and SAN JOSE, Calif. -- CoSoSys, the leading developer of enterprise Endpoint Security and Policy Management solutions for USB devices, announced today the opening of its office in the United States. Leveraging its strong presence in Asia and Europe, CoSoSys is now uniquely positioned to launch its award winning, cutting edge Endpoint Security and Data Loss Prevention (DLP) solutions to customers in the Americas.

"This is an exciting time in the evolution of CoSoSys. We look forward to delivering high-end Security and Policy Management solutions to our enterprise customers, thus helping them secure data and prevent data loss on USB devices, " said Roman Foeckl, Managing Director of CoSoSys. "Also we are committed to developing and delivering world-class enterprise business applications with potential Resellers and Distribution partners who are leaders in their field and who are willing to invest in a successful collaboration targeting mutual future growth."
